EDUCATION

- 1995 / 2001 **BSc+Msc Civil & Structural Engineering.**
Universidade de A Coruña (Spain)
The BSc+MSc Civil & Structural Engineering programme from University of A Coruña provides a comprehensive knowledge of all the civil and structural engineering specialities. Modules content comprise Geotechnics, Foundation Design, Tunnels, Structural Analysis, Bridges, Hydraulics & Hydrology, Dams, Canals, Maritime Works, Roads, Highways, Railways, Construction Management, and Project Management. The duration of this course is 5 years, for a total of 420 ECTS credits. It has a level 7 EQF and level 8 INQF qualification.
This programme is accredited by the professional bodies FEANI (European Union), CICCIP (Spain), OdE (Portugal) and ICE (United Kingdom).
- 2003 / 2004 **MSc Health, Safety & Environment in Construction**
Centro de Iniciativas Profesionales (Spain)
This 1 year duration MSc programme from Center of Professional Initiatives offers highly specialised knowledge about occupational health and safety in infrastructure projects, closely related to the civil engineering industry. Modules include H&S Laws and Regulations, Occupational Psychology, Prevention Management & Planning, Risks (analysis, evaluation, and control), Industrial Hygiene, Ergonomics, H&S Surveillance. This programme qualifies to practice as CDM Co-ordinator in Spain.

EXPERIENCE

Overall experience: 13 years, 3 organisations.

2011 - 2014: General Project Manager

Company: Huso29 Construction. (www.huso29eyc.com)

Activity: Contractor (Medium scale national & international civil and building construction projects)

Main duties:

Head of the building and civil construction department (50-70 workers and technicians)
Ensure the health, safety and environment company's policies implementation and compliance on sites, workforce and sub-contractors coordination.
Designers' coordination, detailed engineering supervision, and procurement management.
Bid management. Technical and economic offers, for national and international clients.

Achievements:

Bid, contract, design and build up the first bridge project made by the Company.
Singular building projects execution (offices, public facilities, refurbishment, new property development, etc.), for national and international clients.
Accomplishment the quality, budget and planning of the projects.

Projects:

Roads:

- Mayor Access Road to Alcoa Aluminium Plant in Saint-Ciprian (Spain)
Project value 350.000 £. Including the tender and the construction.
- Road to Somozas Industrial Sector. Joint Venture Huso29-Ponciano-Guerreiro-Huso29 (In Somozas, Spain)
Project value 1,150,000 £. Including tender & construction

Civil Works in Industry.

- Settling basin project in Alcoa Aluminium Plant (In Saint Ciprian , Spain)

- Project value: 1,250,000 £. Including tender, design & construction.
- New coal station in the Coal Power Plant of Enel-Endesa (In As Pontes, Spain)
Project value 975,000 £. Including tender & construction
- Environmental and Civil Infrastructure Adequation of the Coal Stockyard in the Coal Power Plant of Enel-Endesa (In As Pontes, Spain).
Project value 1.125.000 £. Including tender, design & construction

Building and refurbishment:

- Print and Graphics Centre for Ponti Group. (In Somozas, Spain)
6.425.000 £. Including tender & construction
- Steel Cable Factory for Daxiong Spain. (In As Pontes, Spain)
6.300.000 £. Including tender & construction

Related documents:

Recommendation letter from Huso29 attached.

2007-2011: Project Manager

Organisation: Grupo Puentes. (www.grupopuentes.com/en)

Activity: Main Contractor. (Large scale national and international infrastructure projects)

Main duties:

Project manager responsible for the construction of the the motorway A8, in the North Spain, an international first class road infrastructure. My duties included to control the periods and procedures. Quality control, Health & Safety and Environmental supervision. Organisation of the works on site. To maintain the relationship with the client, suppliers and subcontractors, control of work packages, tender comparison from sub-contractors; control of the construction planning (periods and budgets), optimisation of construction means, concrete and steel structural designing coordination, technical reports, construction logistics, design modifications, built drawings.

Achievements:

Fulfil the delivery of these projects in the required quality, budget and time.

Projects:

Highways

- A8 Motorway in Northern Spain (European Motorway E-70)
Lenght: 4 miles. Tapia de Casariego – Barres.
Client: Spain Government. Department for Transport.
Project value: 22.1 Mill £. Large scale earth-works and structures. 1 tunnel.
- A8 Motorway in Northern Spain (European MotorwayE-70)
Length: 8 miles. Llanes – Pendueles
Project value: 52.5 Mill £. Large scale earth-works and structures: 1 bridge 65 metres between piles. Post-stressed and steel structures, including one four carriage viaduct, 25 metres height

Related documents:

Recommendation letter from A-8 Motorway joint-venture attached.

2001 - 2007: Project Manager

Organisation: Arias Hermanos Construction. (<http://ariashermanos.com/?lang=en>)

Activity: Contractor. (Medium scale national civil engineering construction projects)

Main duties:

Project manager responsible for the construction of several building, refurbishment and civil projects. My duties included to control the periods and procedures. Quality control, Health & Safety and Environmental supervision. Organisation of the works on site. To maintain the relationship with the client, suppliers and subcontractors, control of work packages, tender comparison from sub-contractors; control of the construction planning (periods and budgets), optimisation of construction means, construction logistics, design modifications, built drawings.

Achievements: Fulfil the delivery of these projects in the required quality, budget and time.

Projects:

Building / Housing and public realm

- New housing development and public realm in sector PP.4R. (4 mill £)
- New housing development and public realm in sector Mesoiro- A Coruña (6 mill £)
- New housing development and public realm of Antonio Ríos Street (A Coruña).
Included achoraged walls in the foundations.
- Public realm of Zapateira square (A Coruña)

Roads

- Dualization of an existing road in Pocomaco Road in La Coruña.

- Road improvement of AS-22, Vegadeo-Boal. 1 viaduct.
- Road improvement of AC-213 Culleredo-Cambre (1 bridge)

Ports:

- Enlargement of Cariño port. New docks.
- Enlargement of Celeiro port. New explanade and electrical installation
- Breakwater wall and new darsena in Ortigueira.

Rail:

- Dualization of the railway Ferrol-Gijon.
- Substitution of the railway-bridge.in Ortigueira, over C-642 road.

Refurbishment:

- Refurbishment of the Naval Museum of the Spanish Navy in Ferrol (A Coruña).3 mill £.

Related documents:

Recommendation letter from Arias Hermanos Construction attached.

2000: Apprenticeship.

Organisation: Ports of Galicia (Spanish Ports Authority)

Activity: Public Infrastructures.

Main duties:

- Projects design. Relation with main contractors. Budget planning.

COURSES - CERTIFICATIONS

2014	CSCS card. (AQP Academically Qualified Person). License nº 5257663 <i>CITB Construction Industry Training Board (UK).</i>
2014	Piping (design and construction) (<i>EADIC</i>).
2011	Cement stabilised pavement layers in roads. (<i>Intevía</i>).
2010	Design and construction of retaining walls (<i>ATC</i>)
2008	First year of the PhD of Civil Engineering (<i>University of La Coruña</i>)
2005	Health and Safety on rail projects. (Spanish Rail Department)
2004	Health and Safety inside the Petrochemical Industry. (<i>REPSOL</i>)
2000	Autocad: Advanced level. (<i>University of La Coruña</i>)

LANGUAGES

English:	Fluent.
Spanish:	Fluent
French:	Elemental (A1 - A2)

COMPUTING

Office: Expert (Excel, Word, Project, Powerpoint, Outlook)

Autocad: Expert

Project Management: Presto, M4pro, Memphis, Metroplus (Expert)

Planning: Microsoft Project (expert) and PrimaveraP6 (user)

Structural design: Cosmos, EHE, Sap 90, Sap 2000 (User)

Drainage, flooding and piping design: Epanet, Hec-Ras. (User)

OTHER SKILLS.

Member of the Institution of Civil Engineers (ICE), Graduate. Working towards CEng MICE (Chartered) Chartered Civil&Structural Engineer for CICCIP (Spanish professional body for Civil Engineers, nº 18,493).

UK valid car driving licence and UK National Insurance Number (NIN).

Availability: immediately. Able to relocate. Keen to travel throughout U.K.

Pilot Private Licence PPL(A). Qualified for air traffic communications (In English and Spanish)

Sport Federative Licence for Golf and Sailing.
